Pages: 433 pp  
Pub date: Available

**TILDE UNIVERSITY PRESS**

## **About Tilde University Press**

Tilde University Press (TUP) has developed a more flexible approach to academic publishing. Our aim is to publish quality educational works based on cutting edge research, while making the whole publishing experience more enjoyable for authors, and more accessible and affordable for students, professionals and practitioners.

Innovations include:

- Recommended retail prices on TUP textbooks well under the \$100 mark.
- No extravagant use of colour and no overly elaborate design elements.
- Supplements that have value for lecturers and students, and that are free online wherever possible.

Freed from the constraints of inflexible revision cycles and a 'one-size-fits-all' mentality, TUP is working with educators, researchers and authors to re-engineer how textbooks and student references are written, how they are used, and how they are priced.

TUP consists of a talented, committed team who believe passionately in publishing valuable – and not just expensive – educational works. Please visit [www.tup.net.au](http://www.tup.net.au) to learn more or to download a publishing proposal form.

## **Distribution**

TUP textbooks in Australia and NZ are distributed by:

**Palgrave Macmillan Distribution Services**

Ph: 1300 135 113 \* Fax: 1300 135 103
